

IPC CT 51 XP 55 Scrubber dryer

The most modern and previously unseen scrubber dryer is here. CT 51 holds in itself latest technology of the cleaning industry and ensures perfect cleaning result in any location. The machine takes usability into an entirely new level due to easy and simple solutions. Complex background technology has been made highly interactive and easily adaptable.

The functions to easier usability include i.e. ECO mode, in which the user can set the machine into an energy saving mode whenever necessary. ANCT™ system (Advanced Noise Control) makes low noise level possible and the brush unit adapts to uneven floors perfectly. Integrated memory card saves all the relevant data, such as battery charge cycles, energy consumption of the brush motor and hour counter. Locations that require daily cleaning are marked with yellow touch points for easy recognition.

Telemetrics are available for the CT 51 as an optional accessory. Telemetrics allows tracking of the location and use history of the machine from a distance so that the administrator does not need to be physically present when the information is acquired.

Technical specifications

Working width/Pad size	55 cm/21"
Measurements (l/w/h)	128/56/103 cm
Suction width	81,6 cm
Net weight, incl. batteries	228,5 kg
Freshwater tank	50 l
Likavesisäiliö	53 l
Suction motor	380 W
Operational efficiency	3150 m ² /h
Operating time	250 min
Noise level	54 dB
Brush rotation speed	150 rpm
Brush pressure	18,4 kg
Integrated charger	Yes
Charging time	7 h
Operating time/full tank	60 min

Standard accessories

Brush	ISPPV01352
Battery 12 V / 2 x 105 Ah	IBAAC00105
Memory card	

Optional accessories

Pad holder	
Splash guard	IKTRI04847
Suction equipment	IKTRI02257
Tool holder	IKTRI04848
Telemetrics, GPS	

Country of manufacture

ITALY

Package size / Product code

Sales unit	Product Code	GTIN
1 x 1 pcs	ILPTB03035
