

Kiilto Hard Green Machine Dishwashing Agent

Application	An efficient automatic dishwashing liquid for very hard water.		
Product properties	Effectively emulsifies grease, dissolves starch and protein. Contains a high amount of complexing agents. Keeps the dishes and the machine clean by effectively preventing deposits to accumulate. Not recommended for aluminium dishes. Does not contain any chlorine compounds.		
Instructions for use	The dishes are placed in the washing basket with their dirty side towards the solution sprays so that all dishes are reached by the spray. Rinsing in tepid water before the actual washing is recommended for very dirty dishes.		
Note	Not recommended for aluminium dishes.		
Composition	Ingredient		Effect
	Sodium hydroxide	5-15 %	Disperses dirt, deposits and dissolves starch and protein.
	Polycarboxylate	< 5%	Disperses dirt and deposits..
	Phosphonates	< 5 %	Softens the water and increases the cleaning effect.
Other composition	Anti-corrosive agent		
Product pH	14.0 strongly alkaline		
Solution pH	12.0 strongly alkaline		
Storage	Storage in original packaging at temperature over + 5 °C. Shelf life is 5 years from manufacturing date.		
Appearance and scent	Clear, light yellow liquid		
Country of manufacture	FINLAND		
User and environmental safety	The surfactants are environmentally friendly. Empty, rinsed containers can be used either as material or energy.
